

Ultra Drugs Pvt. Ltd.
(GMP/WHO MANUFACTURING)

Warm greetings for the day from the ULTRA DRUGS Group of companies !

We take immense pride in introducing our latest plant facility, where innovation meets excellence.

With complete automation, our cutting-edge Tunnel system represents the peak of development. This technology uses a dynamic mechanism using forced convection to harness the power of dry heat. Clean, empty glassware intended for pharmaceutical applications is sterilized using filtered air that has been passed through high-efficiency HEPA filters.

With this innovative process, unmatched levels of cleanliness and product quality are guaranteed. Notably, our filling machine operates at a commendable rate and can process an incredible 14,000 vials each hour. This accomplishment demonstrates our steadfast dedication to pharmaceutical manufacturing's highest standards of precision as well as productivity.

In our pursuit of excellence, we continue to adhere to the stringent requirements of pharmaceutical manufacturing while discreetly inviting you to consider our facility for your prospective future needs.

And We Ultra Drugs Group Are Proud to be associated with:

Ajanata Pharma

Micro Labs

Mankind Pharma

Medley Pharma

Khandelwal Labs

Shreya Lifesciences

And many more esteemed Pharmaceuticals companies.....
